About Me

I'm Edu, 28 years old, from Barcelona. With **6+ years of professional experience**, I focus on building solutions that are not just **efficient and scalable**, but also **meaningful**.

I thrive on understanding how **design, data, and operations** intersect to create intuitive user experiences. Currently deepening my expertise in **Figma** for UX/UI and sharpening my data skills with **SQL and Python**.

Work Experience

Customer Excellence Manager

Exoticca

exoticca

Jan 2025 - Present

Lead the **Customer Excellence department**, translating client insights into **scalable processes** that boost repetition and reduce dependency on manual interventions.

- Delivered impactful **customer experience improvements**, sustaining a **40% Net Promoter Score (NPS)** across **45,000+ annual trips** in **40+ destinations globally**.
- Designed & managed **transformational projects**, including linking NPS to **revenue generation (~€8M per 10 NPS points)** and an **AI predictive model** for dissatisfaction (**25% improvement** in in-destination satisfaction).
- Served as the **strategic owner** for an in-house provider management platform used by **100+ global partners** to manage bookings at scale, streamlining **global partner operations**.

Operations Analyst - Business Excellence

Exoticca

exoticca

May 2022 - Jan 2025

- Delivered over **20 high-impact projects** across Sales, Product, Finance, and Marketing to drive **operational efficiency**.
- Led a **cost-reduction initiative** optimizing flight purchasing, resulting in a **€900,000 (~\$1M) annual improvement**.
- Revamped **payment infrastructure**, diversifying providers and reducing processing costs by **0.5% (~€1M annual savings)**, supporting **global market expansion**.

Senior Audit Associate

PriceWaterhouseCoopers

pwc

Sep 2019 - May 2022

Conducted complex **financial audits** for diverse clients, assessed **operational and financial risks**, and ensured compliance with regulatory standards. Provided actionable insights to improve client processes.

Projects

AI Customer Experience Analyzer

[GitHub Repo →](#)

Developed an interactive web app using **NLP** to analyze unstructured customer feedback, generating a **strategic dashboard** to identify root causes for market-specific NPS gaps.

AI Project NPS Python

NPS in-App

[GitHub Repo →](#)

Created an interactive **HTML/CSS/JS mock-up** visualizing a dynamic **in-app NPS survey**, including logic for integration with email journeys for Exoticca's mobile app.

CSS HTML Javascript NPS

Trustpilot Scraper & Analyzer

[GitHub Repo →](#)

Built a tool to **scrape, analyze, and tag** Trustpilot reviews using **NLP** to understand customer issues related to T&Cs, allowing **data-driven policy changes**.
